Portnoy's Complaint n. [after Alexander Portnoy (1933-)]:A disorder in which strongly-felt ethical and altruistic impulses are perpetually warring with extreme sexual longings, often of a perverse nature. Portnoy's Complaint tells the tale of young Jewish lawyer Alexander Portnoy and his scandalous sexual confessions to his psychiatrist. As narrated by Portnoy, he takes the reader on a journey through his childhood to adolescence to present day while articulating his sexual desire, frustration and neurosis in shockingly candid ways. Hysterically funny and daringly intimate, Portnoy's Complaint was an immediate bestseller upon its publication and elevated Roth to an international literary celebrity.

Complaints, Controversies and Grievances in Medicine Sep 25 2022 Recent studies into the experiences and failures of health care services, along with the rapid development of patient advocacy, consumerism and pressure groups have led historians and social scientists to engage with the issue of the medical complaint. As

expressions of dissatisfaction, disquiet and failings in service provision, past complaining is a vital antidote to progressive histories of health care. This book explores what has happened historically when medicine generated complaints. This multidisciplinary collection comprises contributions from leading international scholars and uses new research to develop a sophisticated understanding of the development of medicine and the role of complaints and complaining in this story. It addresses how each aspect of the medical complaint - between sciences, professions, practitioners and sectors; within politics, ethics and regulatory bodies; from interested parties and patients - has manifested in modern medicine, and how it has been defined, dealt with and resolved. A critical and interdisciplinary humanities and social science perspective grounded in historical case studies of medicine and bioethics, this volume provides the first major and comprehensive historical, comparative and policy-based examination of the area. It will be of interest to historians, sociologists, legal specialists and ethicists interested in medicine, as well as those involved in healthcare policy, practice and management.

Red Flags in Psychotherapy Jul 23 2022 This book

delves into risks that can easily bedevil any psychotherapist and what can happen if they are ignored. Dramatic storytelling, based on actual incidents from the author's experiences as a member of ethics committees and as an ethics teacher and consultant, explores actions prompting clients to issue formal complaints. Set in the context of an ethics committee meeting over the course of a weekend, twelve psychologists face their peers who will stand in judgment. Issues include the fallout from losing one's temper with a difficult client, a personal disclosure gone terribly wrong, a bartering arrangement that literally falls apart, a private life revealed in a most public way, a vengeful act that sullies the reputation of an entire department, breaking confidentiality when a client threatened harm, and the slippery slope to sexual exploitation. The stories are absorbing, enlightening, sometimes shocking, and often stranger than fiction. Narrative nonfiction puts human faces and emotions on what would otherwise be cursory statistics. What led to the formal complaint from both the vantage point of the complainant and the psychologist offers insights not otherwise available unless the dynamics of their private lives leading up to the conflict are revealed. An author's commentary and discussion questions follow every story. Both new and seasoned practitioners, as well as those still in training, will find this to be an invaluable

resource.

Complaint! Nov 27 2022 In Complaint! Sara Ahmed examines what we can learn about power from those who complain about abuses of power. Drawing on oral and written testimonies from academics and students who have made complaints about harassment, bullying, and unequal working conditions at universities, Ahmed explores the gap between what is supposed to happen when complaints are made and what actually happens. To make complaints within institutions is to learn how they work and for whom they work: complaint as feminist pedagogy. Ahmed explores how complaints are made behind closed doors and how doors are often closed on those who complain. To open these doors---to get complaints through, keep them going, or keep them alive---Ahmed emphasizes, requires forming new kinds of collectives. This book offers a systematic analysis of the methods used to stop complaints and a powerful and poetic meditation on what complaints can be used to do. Following a long lineage of Black feminist and feminist of color critiques of the university, Ahmed delivers a timely consideration of how institutional change becomes possible and why it is necessary.

In Fifty Years We'll All Be Chicks Jan 25 2020 A couple years back, I was at the Phoenix airport bar. It was empty except for one heavy-set, gray bearded, grizzled guy who looked like he just rode his donkey into town

after a long day of panning for silver in them thar hills. He ordered a Jack Daniels straight up, and that's when I overheard the young guy with the earring behind the bar asking him if he had ID. At first the old sea captain just laughed. But the guy with the twinkle in his ear asked again. At this point it became apparent that he was serious. Dan Haggerty's dad fired back, "You've got to be kidding me, son." The bartender replied, "New policy. Everyone has to show their ID." Then I watched Burl Ives reluctantly reach into his dungarees and pull out his military identification card from World War II. It's a sad and eerie harbinger of our times that the Oprah-watching, crystal-rubbing, Whole Foods-shopping moms and their whipped attorney husbands have taken the ability to reason away from the poor schlub who makes the Bloody Marys. What we used to settle with common sense or a fist, we now settle with hand sanitizer and lawyers. Adam Carolla has had enough of this insanity and he's here to help us get our collective balls back. In *Fifty Years We'll All Be Chicks* is Adam's comedic gospel of modern America. He rips into the absurdity of the culture that demonized the peanut butter and jelly sandwich, turned the nation's bathrooms into a lawless free-for-all of urine and fecal matter, and put its citizens at the mercy of a bunch of minimum wagers with axes to grind. Peppered between complaints Carolla shares candid anecdotes from his day to day life as well as his

past—Sunday football at Jimmy Kimmel's house, his attempts to raise his kids in a society that he mostly disagrees with, his big showbiz break, and much, much more. Brilliantly showcasing Adam's spot-on sense of humor, this book cements his status as a cultural commentator/comedian/complainer extraordinaire.

Complaints to the Authorities in Russia Mar 07 2021

This book considers the process of legal modernization in Russia from the development of the mechanism of complaints addressed to the authorities from the pre-revolutionary period to today. It analyzes wide-ranging data and sources, collected over 17 years, such as legislation, in-depth interviews, archival materials, original texts, and examples of different methods of complaints in Soviet and contemporary Russia. Being marginal to the legal system and almost invisible for researchers of legal development, the complaint mechanism has functioned as an extremely important way of restoring justice, available to the majority of people in Russia for centuries. It has survived several historical gaps and, in a sense, acts as a thread that

stitches together different eras, coexisting with the establishment and modernization of legal institutions, compensating, accompanying, and sometimes substituting for them. The research covers a period of over 100 years, and shows how and why at major historical crossroads, Russia chooses between full-fledged legal modernization and saving the authoritarian social contract between the state and society. This book will be especially useful to scholars researching Soviet society and Post-Soviet transformations, socio-legal studies, and liberal legal reforms, but will also appeal to those working in the broader fields of Russian politics, the history of Soviet society and justice issues more generally.

[Complaints and Disorders](#) Nov 22 2019 In this sequel to their underground bestseller *Witches, Midwives, and Nurses*, Ehrenreich and English document the tradition of American sexism in medicine before and after the turn of the century. Citing numerous 'treatments' and 'rest cures' perpetrated on women through the decades, they analyze the biomedical rationales used to justify sex discrimination.

Surrendering Retribution in the Psalms Aug 12 2021 In 'Surrendering Retribution in the Psalms', David Firth examines the ways in which the editors of the Psalms have provided a model of prayer and the surrender of the right of retribution to Yahweh as the appropriate way to respond to violence. This breaks fresh ground on the question of the ways in which the book of Psalms offers instruction. This instruction is then applied to the context of South Africa where he was working as a missionary when he wrote the original thesis. In this way, the continuing missiological significance of these Psalms is also explored.

Complaints Against the Police Nov 03 2020 These papers examine systems for dealing with complaints against the police in different countries, and look at structural factors, and the role of law in dealing with organizational misconduct. Some of the common

questions these comparisons across countries address are: What is a complaint? How does one arise? What is the role of constitutional and governmental structures?

Electronic Complaints Jan 17 2022 The interest in computer-mediated communication (CMC) has vastly risen over the recent years. Nevertheless, crosscultural differences in CMC have received little attention so far, especially with regard to complaining behaviour. This book therefore contributes to this still unexplored research area by comparing British English and German complaints in CMC, precisely on eBay. The empirical study statistically analyses online complaints taken from the feedback forum of this online auction house and shows both similarities and differences in the way speakers of the two cultures formulate their online complaints. Additionally, the impact the specific online context may have on users' speech act performance is reviewed. Given that cultural differences may lead to misunderstandings in cross-cultural electronic communicative situations, this book is not only of interest to different fields of pragmatics, but also to e-commerce and is hence of economic interest.

The Complaints Oct 26 2022 Nobody likes The Complaints -- they're the cops who investigate other cops. It's a department known within the force as The Dark Side, and it's where Malcolm Fox works. He's a serious man with a father in a nursing home and a sister who persists in an abusive relationship, frustrating problems about which he cannot seem to do anything. Then the reluctant Fox is given a new case. There's a cop named Jamie Breck, and he's dirty. The problem is, no one can prove it. As Fox takes on the job, he learns that there's more to Breck than anyone thinks -- dangerous knowledge, especially when a vicious murder takes place far too close to home. In The Complaints,

Rankin proves again why he is one of the world's most beloved and bestselling crime writers, mixing unstoppable pacing with the deeper question of who decides right from wrong.

Collective Complaints As a Means for Protecting Social Rights in Europe Sep 13 2021 The collective complaints procedure was created in 1995 as an optional quasi-judicial monitoring mechanism specific for the protection of social rights, within the framework of the Council of Europe treaty system of the European Social Charter. In recent years, the importance and use of this procedure has increased considerably, in the context of a number of serious economic and social crises which are impacting negatively on the effective enjoyment of social rights in Europe. This short monograph explores and clarifies the specific features, the potential and limits of the collective complaints procedure, intended as a sui generis instrument for the protection of social rights, in the light of its evolutive application by the European Committee of Social Rights (the monitoring body of the European Social Charter) and its real impact on the state and conditions of social rights in the European countries concerned.

Portnoy's Complaint Mar 19 2022 The groundbreaking novel that propelled its author to literary stardom: told in a continuous monologue from patient to psychoanalyst, Philip Roth's masterpiece draws us into the turbulent mind of one lust-ridden young Jewish bachelor named Alexander Portnoy. Portnoy's Complaint n. [after Alexander Portnoy (1933-)] A disorder in which strongly-felt ethical and altruistic impulses are perpetually warring with extreme sexual longings, often of a perverse nature. Spielvogel says: 'Acts of exhibitionism, voyeurism, fetishism, auto-eroticism and oral coitus are plentiful; as a consequence of the patient's "morality," however, neither fantasy nor act issues in genuine sexual gratification, but rather in overriding feelings of shame and the dread of retribution, particularly in the form of castration.' (Spielvogel, O. "The Puzzled Penis," Internationale Zeitschrift f ü r Psychoanalyse, Vol. XXIV, p. 909.) It is believed by Spielvogel that many of the symptoms can be traced to the bonds obtaining in the mother-child relationship.

ACHIEVING FAIRNESS May 21 2022

Feeding Back? Jun 29 2020 There are currently two separate statutory processes for handling complaints about health and social care services. NHS

organisations are accountable to the Department of Health and social care services are accountable through their local authority, whilst adult social care rests with the Department. There are differences in the numbers of stages and timescales involved, and in the arrangements for advocacy support and independent investigation. The Health Service Ombudsman is responsible for the ultimate review and decision on NHS complaints and the Local Government Ombudsman for social care complaints. The NAO is this report (HCP 853, session 2007-08), has undertaken an evaluation of existing performance, capability, capacity and costs of complaints handling in both health and adult social care. The NAO has set out a number of findings and recommendations, including: that where people are dissatisfied, there is a low number who make formal complaints; that navigating the complaints systems is not straightforward, particularly for health service users; only a small proportion of NHS complainants are aware, or receive national advocacy support; that the culture and attitudes of the organisations are often a barrier to responsive complaint handling; neither the health or social care organisations know the cost of complaints handling; that pursuing a complaint requires considerable time, determination and resilience.

Fresh Complaint Jul 11 2021 Proudly presenting the widely anticipated new work of fiction from the multi-

award winning bestselling author of *Middlesex*--a #1 major bestseller in Canada--and *The Marriage Plot*--also an acclaimed national bestseller--and the beloved *The Virgin Suicides*. Featuring unseen stories from one of the most eclectic, dynamic fiction writers working today, *Fresh Complaint* brings together works both new and previously published--including the cr è me de la cr è me of Eugenides's beloved *New Yorker* stories, never before collected between two covers. Jeffrey Eugenides's bestselling novels have shown that he is an astute observer of the crises of adolescence, sexual identity, self-discovery, family love and what it means to be an American in our times. The stories in *Fresh Complaint* continue that tradition. Ranging from the reproductive antics of "Baster" to the wry, moving account of a young traveller's search for enlightenment in "Air Mail" (selected by Annie Proulx for *The Best American Short Stories* 1997), this collection presents characters in the midst of personal and national crises. We meet a failed poet who, envious of other people's wealth during the real-estate bubble, becomes an embezzler; a clavichordist whose dreams of art collapse under the obligations of marriage and fatherhood; and, in "Bronze," a sexually confused college freshman whose encounter with a stranger on a train leads to a revelation about his past and his future. Narratively compelling, beautifully written and packed with a density of ideas that belie their

fluid grace, *Fresh Complaint* proves Eugenides to be a master of the short form as well as the long. Showcasing stories from as far back as the 1980s and as recently as 2017, *Fresh Complaint* is the career-spanning collection from the Pulitzer Prize-winning author.
