College Writing Skills May 31 2020 College Writing Skills uses explanation, demonstration, and practice to teach skills essential to success in college writing. For this course Peder Jones and Jay Farness have constructed a framework of rhetoric--work in composing paragraphs and essays--around disciplined study of sentences and words. The authors have sought in each section of the book to combine the most useful features of contemporary and traditional approaches to college English. Their overall aim is to enable the beginning college writer to compose clear and effective sentences, paragraphs, and compositions. This new edition of College Writing Skills is a refinement of the four previous editions; it has been shaped by helpful comments from students and instructors who have used the course. Exercises have been updated, and many minor changes for clarity have been made. Basic features of this text have not changed, however. As a hybrid of textbook and workbook, it continues to stress focused practice leading to directed independent composing activities; it emphasizes student writing rather than students reading about writing. This emphasis translates into more than 500 sets of exercises, more than 100 optional workshop activities, and an Appendix covering special problems in the acquisition of English. The exercises in this textbook embody our belief that practice is crucial to improving one's writing skills. Accordingly, this text provides practice in forming ideas, in getting ideas out of one's head and onto paper, in experimenting with various sentence structures in order to achieve clarity, in following models of correct grammar and effective style, and in making the writing process pay off through effective revision and editing. A Collegiate Press book

Everybody Writes Nov 24 2019 Finally a go-to guide to creating and publishing the kind of content that will make your business thrive. Everybody Writes is a go-to guide to attracting and retaining customers through stellar online communication, because in our content-driven world, every one of us is, in fact, a writer. If you have a web site, you are a publisher. If you are on social media, you are in marketing. And that means that we are all relying on our words to carry our marketing messages. We are all writers. Yeah, but who cares about writing anymore? In a time-challenged world dominated by short and snappy, by click-bait headlines and Twitter streams and Instagram feeds and gifs and video and Snapchat and YOLO and LOL and #tbt. . . does the idea of focusing on writing seem pedantic and ordinary? Actually, writing matters more now, not less. Our online words are our currency; they tell our customers who we are. Our writing can make us look smart or it can make us look stupid. It can make us seem fun, or warm, or competent, or trustworthy. But it can also make us seem humdrum or discombobulated or flat-out boring. That means you've got to choose words well, and write with economy and the style and honest empathy for your customers. And it means you put a new value on an often-overlooked skill in content marketing: How to write, and how to tell a true story really, really well. That's true whether you're writing a listicle or the words on a Slideshare deck or the words you're reading right here, right now... And so being able to communicate well in writing isn't just nice; it's necessity. And it's also the oft-overlooked cornerstone of nearly all our content marketing. In Everybody Writes, top marketing veteran Ann Handley gives expert guidance and insight into the process and strategy of content creation, production and publishing, with actionable how-to advice designed to get results. These lessons and rules apply across all of your online assets — like web pages, home page, landing pages, blogs, email, marketing offers, and on Facebook, Twitter, LinkedIn, and other social media. Ann deconstructs the strategy and delivers a practical approach to create ridiculously compelling and competent content. It's designed to be the go-to guide for anyone creating or publishing any kind of online content — whether you're a big brand or you're small and solo. Sections include: How to write better. (Or, for "adult-onset writers": How to hate writing less.) Easy grammar and usage rules tailored for business in a fun, memorable way. (Enough to keep you looking sharp, but not too much to overwhelm you.) Giving your audience the gift of your true story, told well. Empathy and humanity and inspiration are key here, so the book covers that, too. Best practices for creating credible, trustworthy content steeped in some time-honored rules of solid journalism. Because publishing content and talking directly to your customers is, at its heart, a privilege. "Things Marketers Write": The fundamentals of 17 specific kinds of content that marketers are often tasked with crafting. Content Tools: The sharpest tools you need to get the job done. Traditional marketing techniques are no longer enough. Everybody Writes is a field guide for the smartest businesses who know that great content is the key to thriving in this digital world.
