Gender Ideologies and Military Labor Markets in the U.S. offers a comprehensive analysis of the relationship between changes in military gender ideologies and structural changes in U.S. military and society. By investigating how social and military change have influenced gender ideologies, the author develops an approach that (re-)connects military gender ideologies to the social conditions of their production and distribution and explains their transformation as effects of changing social and political relations and conflicts. Examining the role of different groups of social actors, media debates on women's military participation and gender ideologies inherent in depictions of military women, the author seeks to contextualise these ideologies are within structural change in the U.S. military and society, relating them to the gender-specific division of labour on civilian and military labor markets. This work provides a deeper understanding of the nexus between military restructuring processes, women's military integration, and changes of gender ideologies in regard to war and the military, and will be of great interest to students and scholars of gender, security studies and American politics. His name is Giles Owita. He bags groceries at the supermarket. He comes from Kenya. And he's very good at

gardening. Before long Giles is transforming not only Carol's yard, but her life. Though they are seemingly quite different, a caring bond grows between them. A satisfying, toe curling, hair pulling, best night of my life mistake, but a mistake all the same. I didn't yet know his name, or who he was, but I knew he was a bad idea. I take comfort in that, because it means my instincts are still good. Too late, but it's something. Because, FYI, I'm pregnant." -- Back cover. On the eve of the five hundredth anniversary of the discovery of the Americas, it bears remembering that in 1492, as Columbus was making his historic voyage, Europe was flourishing, at the very height of the Renaissance that transformed a continent. In art, politics, commerce, and society, the medieval world had given way to the modern era. But what was Europe really like then? What did London, Paris, Rome, and the other great centers of culture actually look like, and what was it like to travel from one to the other when the horse and the sailing ship were the most expeditious means available? How long would a typical journey take? Where would one stay and what could one eat along the way? And whom might one expect to meet? Both kings and pilgrims, to be sure. In *Travel Guide to Europe 1492*, the noted Italian historian Lorenzo Camusso offers modern-day readers and would-be adventurers ten itineraries for trips commonly taken in both the near and far reaches of fifteenth-century Europe. Whether Camusso's wayfarer is an ambitious young banker on the road From Florence to Bruges; the great painter Albrecht Rurer on his way from Nurember to Venice, a shipbuilder whose highly prized craft takes him from Seville to Antwerp via Barcelona, Beaune, and Paris; or a lonely pilgrim wandering from Vezelay to far-off

Santiago de Compostela, he offers a vivid account of what such a journey would be like--the sights, sounds, perils, and pleasures--and in so doing he renders the very fabric of day-to-day life during this momentous year in Europe's history. The Neverglades have seen their fair share of supernatural phenomena over the years, but a new threat has arisen in town: the Semblance, a shapeshifting entity with a centuries-old grudge against the Inspector. Plagued by walking nightmares and unable to trust even their own neighbors, the people of Pacific Glade have never faced a more insidious foe. Thankfully the Inspector and Sheriff Olivia Marconi are on the case. But the Semblance knows how to hit the Inspector where it hurts, and their battle puts more than their own lives in jeopardy. Specters of the dead, prehistoric time travel, haunted hotels, mysterious otherworldly dimensions - this could be the duo's deadliest adventure yet. It's going to take everything in Marconi's power to protect the people she loves. But it's a dangerous multiverse out there, and the Inspector may not always be there to bail her out... Retired Navy SEAL, Clint Backwater, enjoys his solitary life as owner of the Ask Questions Later gun range. It's the kind of place you find because you know a guy. So when Leila Ortiz, a petite woman with a "baby on board" sticker on the back of her car—and an 18-month-old boy in her arms—shows up at the range, panicked and desperate for a gun, he knows something is wrong. Having grown up in the foster system, Clint

has seen what happens when you let yourself get too invested—things get messy, people leave. He made himself a promise to never get emotionally involved again, but the former SEAL in him feels the tug to help this woman and her child. Leila’s ex-husband is being released from prison early on good behavior and she found out too late. He was supposed to serve five years, not two, and Leila is unprepared to protect herself and her son. She promised him they’d never run again—they’ve made a nice life for themselves and the last thing she wants to do is leave it all behind. When Clint refuses to give Leila a gun without lessons, she agrees to return to the range to learn. At first, Leila won’t say why she’s so desperate for protection, but when the threats from her ex escalate, it becomes clear what she’s afraid of. Clint is a loner. Always has been, always will be. So when Leila and her little son enter his life, it hits him—hard—maybe being alone isn’t what he needs. Still, having his solitary life disrupted when he invites the little family into his home is a bit tougher to take than he thought. With Leila and her son in danger, though, he’ll do whatever it takes to keep them safe—even putting up with stray toys and changing a nappy or two. But the biggest danger might be to his heart, when it starts to look like the safest thing for Leila and her baby might be to leave her problems—and her budding relationship with Clint—behind.
