*By turns inspiring and heart-breaking, hopeful and  
horrifying, I Shall Not Hate is Izzeldin Abuelaish's  
account of an extraordinary life. A Harvard-trained  
Palestinian doctor who was born and raised in the  
Jabalia refugee camp in the Gaza Strip and "who has  
devoted his life to medicine and reconciliation between  
Israelis and Palestinians" (New York Times), Abuelaish  
has been crossing the lines in the sand that divide  
Israelis and Palestinians for most of his life - as a  
physician who treats patients on both sides of the line,  
as a humanitarian who sees the need for improved health  
and education for women as the way forward in the Middle*

East. And, most recently, as the father whose daughters were killed by Israeli soldiers on January 16, 2009, during Israel's incursion into the Gaza Strip. His response to this tragedy made news and won him humanitarian awards around the world. Instead of seeking revenge or sinking into hatred, Abuelaish called for the people in the region to start talking to each other. His deepest hope is that his daughters will be "the last sacrifice on the road to peace between Palestinians and Israelis." New York Times bestseller *What is Jesus worth to you? It's easy for American Christians to forget how Jesus said his followers would actually live, what their new lifestyle would actually look like. They would, he said, leave behind security, money, convenience, even family for him. They would abandon everything for the gospel. They would take up their crosses daily... But who do you know who lives like that? Do you? In Radical*, David Platt challenges you to consider with an open heart how we have manipulated the gospel to fit our cultural preferences. He shows what Jesus actually said about being his disciple--then invites you to believe and obey what you have heard. And he tells the dramatic story of what is happening as a "successful" suburban church decides to get serious about the gospel according to Jesus. Finally, he urges you to join in *The Radical Experiment* -- a one-year journey in authentic discipleship that will transform how you live in a world that desperately needs the Good News Jesus came to bring. From the creator of the popular website *Ask a Manager* and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations--featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does--and in this incredibly helpful

book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party

Praise for *Ask a Manager* “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's *Ask a Manager* column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “*Ask a Manager* is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

“Refreshingly voice-y, wildly smart, and genuinely hilarious.” — Casey McQuiston, *New York Times* bestselling author of *Red, White & Royal Blue*

From an exciting new voice comes a funny and heartfelt YA romance set in the world of competitive gaming, perfect for fans of *Opposite of Always* and *Slay*. Emilia Romero is living a double life. By day, she's a field hockey

star with a flawless report card. But by night, she's kicking virtual ass as the only female member of a highly competitive eSports team. Emilia has mastered the art of keeping her two worlds thriving, which hinges on them staying completely separate. That's in part to keep her real-life persona, but also for her own safety, since girl gamers are often threatened and harassed. When a major eSports tournament comes to her city, Emilia is determined to prove herself to her team and the male-dominated gaming community. But her perfectly balanced life is thrown for a loop when a member of a rival team recognizes her . . . Jake Hooper has had a crush on Emilia since he was ten years old. When his underdog eSports team makes it into the tournament, he's floored to discover she's been leading a double life. The fates bring Jake and Emilia together as they work to keep her secret, even as the pressures of the tournament and their non-gaming world threaten to pull everything apart. Debut author Alexis Nedd has crafted a YA combo-punch of charming romance and virtual adventure that will win the hearts of gamers and non-gamers alike.

"What can you do? You can do a lot. You can support justice for all by speaking out loudly to your family, friends, community, politicians and religious leaders. You can support foundations that do good work. You can volunteer for humanitarian organizations. You can vote regressive politicians out of office. You can do many things to move the world toward greater harmony... "I know that what I have lost, what was taken from me, will never come back. But as a physician and a Muslim of deep faith, I need to move forward to the light, motivated by the spirits of those I lost. I need to bring them justice... I will keep moving but I need you to join me in this long journey." -from I Shall Not Hate Dr. Izzeldin Abuelaish - now known simply as "the Gaza doctor" captured hearts and headlines around the world in the aftermath of horrific tragedy: on January 16,

2009, Israeli shells hit his home in the Gaza Strip, killing three of his daughters and a niece. By turns inspiring and heartbreaking, hopeful and horrifying, this is Abuelaish's account of a Gazan life in all its struggle and pain. A Palestinian doctor who was born and raised in the Jabalia refugee camp in the Gaza Strip, Abuelaish is an infertility specialist who lived in Gaza but plied his specialty in Israeli hospitals. From the strip of land he calls home (a place where 1.5 million refugees are crammed into 360 square kilometres of land), the Gaza doctor has been crossing the lines that divide the region for most of his life, as a physician who treats patients on both sides of the border and as a humanitarian who sees the need for improved public health and education for women as the way forward in the Middle East. But it was Abuelaish's response to the loss of his children that made news and won him humanitarian awards around the world. Instead of seeking revenge or sinking into hatred, in this personal account of his life, Izzeldin Abuelaish is calling for the people of the Middle East to start talking to each other. His deepest hope is that his daughters will be the last sacrifice on the road to peace between Palestinians and Israelis. Christopher Hitchens, described in the London Observer as "one of the most prolific, as well as brilliant, journalists of our time" takes on his biggest subject yet—the increasingly dangerous role of religion in the world. In the tradition of Bertrand Russell's *Why I Am Not a Christian* and Sam Harris's recent bestseller, *The End Of Faith*, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the

Hubble Telescope's awesome view of the universe, and Moses and the burning bush give way to the beauty and symmetry of the double helix. William Hazlitt's tough, combative writings on subjects ranging from slavery to the imagination, boxing matches to the monarchy, established him as one of the greatest radicals of his age and have inspired journalists and political satirists ever since. A New York Times Notable Book and a San Jose Mercury News Top 20 Nonfiction Book of 2003

In 1606, approximately 105 British colonists sailed to America, seeking gold and a trade route to the Pacific. Instead, they found disease, hunger, and hostile natives. Ill prepared for such hardship, the men responded with incompetence and infighting; only the leadership of Captain John Smith averted doom for the first permanent English settlement in the New World. The Jamestown colony is one of the great survival stories of American history, and this book brings it fully to life for the first time. Drawing on extensive original documents, David A. Price paints intimate portraits of the major figures from the formidable monarch Chief Powhatan, to the resourceful but unpopular leader John Smith, to the spirited Pocahontas, who twice saved Smith's life. He also gives a rare balanced view of relations between the settlers and the natives and debunks popular myths about the colony. This is a superb work of history, reminding us of the horrors and heroism that marked the dawning of our nation.

**INTERNATIONAL BESTSELLER** - "On Friday night you stole the life of an exceptional person, the love of my life, the mother of my son, but you will not have my hate." On November 13, 2015, Antoine Leiris's wife, H el ene Muyal-Leiris, was killed by terrorists while attending a rock concert at the Bataclan Theater in Paris, in the deadliest attack on France since World War II. Three days later, Leiris wrote an open letter addressed directly to his wife's killers, which he posted on Facebook. He refused to be

cowed or to let his seventeen-month-old son's life be defined by H el ene's murder. He refused to let the killers have their way: "For as long as he lives, this little boy will insult you with his happiness and freedom." Instantly, that short Facebook post caught fire, and was reported on by newspapers and television stations all over the world. In his determination to honor the memory of his wife, he became an international hero to everyone searching desperately for a way to deal with the horror of the Paris attacks and the grim shadow cast today by the threat of terrorism. Now Leiris tells the full story of his grief and struggle. *You Will Not Have My Hate* is a remarkable, heartbreaking, and, indeed, beautiful memoir of how he and his baby son, Melvil, endured in the days and weeks after H el ene's murder. With absolute emotional courage and openness, he somehow finds a way to answer that impossible question: how can I go on? He visits H el ene's body at the morgue, has to tell Melvil that Mommy will not be coming home, and buries the woman he had planned to spend the rest of his life with. Leiris's grief is terrible, but his love for his family is indomitable. This is the rare and unforgettable testimony of a survivor, and a universal message of hope and resilience. Leiris confronts an incomprehensible pain with a humbling generosity and grandeur of spirit. He is a guiding star for us all in these perilous times. His message—hate will be vanquished by love—is eternal. Heart-breaking, hopeful and horrifying, *I Shall Not Hate* is a Palestinian doctor's inspiring account of his extraordinary life, growing up in poverty but determined to treat his patients in Gaza and Israel regardless of their ethnic origin. A London University- and Harvard-trained Palestinian doctor who was born and raised in the Jabalia refugee camp in the Gaza Strip and 'who has devoted his life to medicine and reconciliation between Israelis and Palestinians' (*New York Times*), Abuelaish

A groundbreaking book that pulls back the curtain on the terrorist movement no one is talking about

Women's rights activist Laura Bates has been the target of many misogynistic attacks online: from hate-fueled Twitter rants to vivid descriptions of her own rape and even death threats. At first, the vitriol seemed to be the work of a small handful of individual men... but over time, the volume and consistency of the attacks hinted at something bigger and more ominous. As Bates followed the thread of online misogyny farther into the corners of the internet, the spiral of hateful and toxic rhetoric deepened until she found an unseen, organized movement of thousands of anonymous men wishing violence (and worse) upon women—the terrorism no one is talking about. *Men Who Hate Women* examines the rise of secretive extremist communities who despise women as Bates traces the roots of misogyny across a complex spider web of groups extending from Men's Rights Activists to trolls and the incel movement. Drawing parallels to other

extremist movements around the world, including white nationalism, Bates shows what attracts men to the movement, how it grooms and radicalizes boys, how it operates, and what can be done to stop it. Most urgently of all, she follows the pathways this extreme ideology has taken from the darkest corners of the internet to emerge covertly in our mainstream media, our playgrounds, and our government. Going undercover on and offline, Bates provides the first comprehensive look at this under-the-radar phenomenon, including eye-opening interviews with former members of these communities, the academics studying this movement, and the men fighting back. By turns fascinating and horrifying, *Men Who Hate Women* is a broad, unflinching account of the deep current of loathing toward women and anti-feminism that underpins our society and is a must-read for parents, educators, and anyone who believes in equality for women. "Men Who Hate Women has the power to spark social change."—*Sunday Times* **NEW YORK TIMES BESTSELLER** • For the weary, the angry, the anxious, and the hopeful, this collection of moving, tender prayers offers rest, joyful resistance, and a call to act, written by Barbara Brown Taylor, Amina Brown, Nadia Bolz-Weber, and other artists and thinkers, curated by the author Glennon Doyle calls "my favorite faith writer." It's no secret that we are overworked, overpressured, and edging burnout. Unsurprisingly, this fact is as old as time—and that's why we see so many prayer circles within a multitude of church traditions. These gatherings are a trusted space where people seek help, hope, and peace, energized by God and one another. This book, curated by acclaimed author Sarah Bessey, celebrates and honors that prayerful tradition in a literary form. A companion for all who feel the immense joys and challenges of the journey of faith, this collection of prayers says it all aloud, giving readers permission to recognize the weight of all they carry. These writings also offer a broadened

imagination of hope—of what can be restored and made new. Each prayer is an original piece of writing, with new essays by Sarah Bessey throughout. Encompassing the full breadth of the emotional landscape, these deeply tender yet subversive prayers give readers an intimate look at the diverse language and shapes of prayer. A reasonably priced, quality black hardcover pew and ministry Bible featuring a large 12-point font. A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit. Katherine Paterson's remarkable Newbery Medal-winning classic about a painful sibling rivalry, and one sister's struggle to make her own way, is an honest and daring portrayal of adolescence and coming of age. A strong choice for independent reading, both for summer reading and homeschooling, as well as in the classroom, *Jacob Have I Loved* has been lauded as a cornerstone young adult novel and was ranked among the all-time best children's novels in a survey published by *School Library Journal*. "Jacob have I loved, but Esau have I hated . . ." With her grandmother's taunt, Louise knew that she, like the biblical Esau, was the despised elder twin. Caroline, her selfish younger sister, was the one everyone loved. Growing up on a tiny Chesapeake Bay island, angry Louise reveals how Caroline has robbed her of everything: her hopes for schooling, her friends, her mother, even her name. While everyone pampers Caroline, Wheeze (her sister's name for her) begins to learn the ways of the watermen and the secrets of the island, especially of old Captain Wallace, who has mysteriously returned after fifty years. The war unexpectedly gives this independent girl a chance to fulfill her dream to work on the water alongside her father. But the dream does not satisfy the woman she is becoming. Alone and unsure, Louise begins to fight her way to a place for herself outside her sister's shadow. But in order to do that, she must first figure out who

she is... A Harvard-educated Palestinian physician who was raised in a Gaza Strip refugee camp recounts the 2009 bombing attack that killed his daughters, describing how he has cared for patients on both sides of the conflict and won awards for humanitarian acts urging peaceful resolutions. Insightful and heart-warming, this classic book is written for those who seek to know God better. It unfolds life-impacting, biblical truths and has been called a "soul-stirring celebration of the pleasures of knowing God." Writing at the time of Napoleon's greatest campaigns, Prussian soldier and writer Carl von Clausewitz created this landmark treatise on the art of warfare, which presented war as part of a coherent system of political thought. In line with Napoleon's own military actions, he illustrated the need to annihilate the enemy and make a strong display of one's power in an 'absolute war' without compromise. But he was also careful to distinguish between war and politics, arguing that war could only be justified when debate was no longer adequate, and that if undertaken, its aim should ultimately be to improve the wellbeing of the nation. A hilariously candid account of one woman's quest to bring her post-baby marriage back from the brink, with life-changing, real-world advice. "Get this for your pregnant friends, or yourself." --People Recommended by Nicole Cliffe in Slate Featured in People Picks A Red Tricycle Best Baby and Toddler Parenting Book of the year One of Mother magazine's favorite parenting books of the year How Not To Hate Your Husband After Kids tackles the last taboo subject of parenthood: the startling, white-hot fury that new (and not-so-new) mothers often have for their mates. After Jancee Dunn had her baby, she found that she was doing virtually all the household chores, even though she and her husband worked equal hours. She asked herself: How did I become the 'expert' at changing a diaper? Many expectant parents spend weeks researching the best crib or safest

car seat, but spend little if any time thinking about the titanic impact the baby will have on their marriage - and the way their marriage will affect their child. Enter Dunn, her well-meaning but blithely unhelpful husband, their daughter, and her boisterous extended family, who show us the ways in which outmoded family patterns and traditions thwart the overworked, overloaded parents of today. On the brink of marital Armageddon, Dunn plunges into the latest relationship research, solicits the counsel of the country's most renowned couples' and sex therapists, canvasses fellow parents, and even consults an FBI hostage negotiator on how to effectively contain an "explosive situation." Instead of having the same fights over and over, Dunn and her husband must figure out a way to resolve their larger issues and fix their family while there is still time. As they discover, adding a demanding new person to your relationship means you have to reevaluate--and rebuild--your marriage. In an exhilarating twist, they work together to save the day, happily returning to the kind of peaceful life they previously thought was the sole province of couples without children. Part memoir, part self-help book with actionable and achievable advice, *How Not To Hate Your Husband After Kids* is an eye-opening look at how the man who got you into this position in this first place is the ally you didn't know you had. "What can you do? You can do a lot. You can support justice for all by speaking out loudly to your family, friends, community, politicians and religious leaders. The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self. The opportunities afforded by the Internet greatly overshadow the challenges. While not forgetting this, we can nevertheless still address some of the problems that

arise. Hate speech online is one such problem. But what exactly is hate speech online, and how can we deal with it effectively? As with freedom of expression, on- or offline, UNESCO defends the position that the free flow of information should always be the norm. Counter-speech is generally preferable to suppression of speech. And any response that limits speech needs to be very carefully weighed to ensure that this remains wholly exceptional, and that legitimate robust debate is not curtailed. #1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME The extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer.

Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does--or does not--say could upend her community. It could also endanger her life. Want more of Garden Heights? Something is wrong. We all know it. American life expectancy is

declining for a third straight year. Birth rates are dropping. Nearly half of us think the other political party isn't just wrong; they're evil. We're the richest country in history, but we've never been more pessimistic. What's causing the despair? In *Them*, bestselling author and U.S. senator Ben Sasse argues that, contrary to conventional wisdom, our crisis isn't really about politics. It's that we're so lonely we can't see straight—and it bubbles out as anger. Local communities are collapsing. Across the nation, little leagues are disappearing, Rotary clubs are dwindling, and in all likelihood, we don't know the neighbor two doors down. Work isn't what we'd hoped: less certainty, few lifelong coworkers, shallow purpose. Stable families and enduring friendships—life's fundamental pillars—are in statistical freefall. As traditional tribes of place evaporate, we rally against common enemies so we can feel part of a team. No institutions command widespread public trust, enabling foreign intelligence agencies to use technology to pick the scabs on our toxic divisions. We're in danger of half of us believing different facts than the other half, and the digital revolution throws gas on the fire. There's a path forward—but reversing our decline requires something radical: a rediscovery of real places and human-to-human relationships. Even as technology nudges us to become rootless, Sasse shows how only a recovery of rootedness can heal our lonely souls. America wants you to be happy, but more urgently, America needs you to love your neighbor and connect with your community. Fixing what's wrong with the country depends on it. 'Beautifully written, and with wonderful humour, this is a thrilling adventure story of our own future' Lewis Dartnell, author of *The Knowledge and Origins* 'The AI does not hate you, nor does it love you, but you are made of atoms which it can use for something else' This is a book about AI and AI risk. But it's also more importantly about a community of people who are

trying to think rationally about intelligence, and the places that these thoughts are taking them, and what insight they can and can't give us about the future of the human race over the next few years. It explains why these people are worried, why they might be right, and why they might be wrong. It is a book about the cutting edge of our thinking on intelligence and rationality right now by the people who stay up all night worrying about it. Along the way, we discover why we probably don't need to worry about a future AI resurrecting a perfect copy of our minds and torturing us for not inventing it sooner, but we perhaps should be concerned about paperclips destroying life as we know it; how Mickey Mouse can teach us an important lesson about how to program AI; and how a more rational approach to life could be what saves us all. This book offers a collection of reflective essays on current testimonial production by researchers and practitioners working in multifaceted fields such as art and film performance, public memorialization, scriptotherapy, and fictional and non-fictional testimony. The inter-disciplinary approach to the question of testimony offers a current account of testimony's diversity in the twenty-first century as well as its relevance within the fields of art, storytelling, trauma, and activism. The range of topics engage with questions of genre and modes of representation, ethical and political concerns of testimony, and the flaws and limitations of testimonial production giving testament to some of the ethical concerns of our present age. Simultaneous. Forward by T.K. Coleman. When it comes to improving your life you're probably making it harder than it has to be. Stop focusing on what you want, what you love, what your calling or passion is. Start focusing on what you hate, what makes you bored, what's draining your sense of excitement. The best way to a life you love is simple: don't do stuff you hate. This book combines essays and insights from two authors who have put this philosophy into practice. It's a scattershot of ideas and practices for shedding the web of negative obligations, activities, and emotions so you can begin to build something better in its place. In the classic *Mere Christianity*, C.S. Lewis, the most important writer of the 20th century, explores the common ground upon which all of those of Christian faith stand together. Bringing together Lewis' legendary broadcast talks during World War Two from his three previous books *The Case for Christianity*, *Christian Behavior*, and *Beyond Personality*, *Mere Christianity* provides an unequalled opportunity for believers and nonbelievers alike to hear this powerful apologetic for the Christian faith. API development is becoming increasingly common for server-side developers thanks to the rise of front-end JavaScript frameworks, iPhone applications, and API-centric architectures. It might seem like grabbing stuff from a data source and shoving it out as JSON would be easy, but surviving changes in business logic, database schema updates, new features, or deprecated endpoints can be a nightmare. After finding many of the existing resources for API development to be lacking, Phil learned a lot of things the hard way through years of trial and error. This book aims to condense that experience, taking examples and explanations further

than the trivial apples and pears nonsense tutorials often provide. By passing on some best practices and general good advice you can hit the ground running with API development, combined with some horror stories and how they were overcome/avoided/averted. This book will discuss the theory of designing and building APIs in any language or framework, with this theory applied in PHP-based examples. A valedictory collection of poems of autumn, of beauty, of regret and the dying associated with this magnificent season. The first part sets the scene generally. The second part, *Bleak Elegies*, consists of poetry written during the three weeks either side of the winter solstice, and reflects the seasonal affective disorder which affects the author particularly badly during that time. In the third part, *Odes Autumnal*, the poems are more philosophical and reflective of autumn's gifts. Unlike the magnificent and inspirational odes of Keats, which are filled with the naive innocence of a young man, this collection is written from the perspective of someone who has lived long amid the agonies of a world in torment. Every liberal democracy has laws or codes against hate speech, except the United States. For constitutionalists, regulation of hate speech violates the First Amendment and damages a free society. Against this absolutist view, the author argues that hate speech should be regulated as part of our commitment to human dignity and to inclusion and respect for members of vulnerable minorities. Causing offense, by depicting a religious leader as a terrorist in a newspaper cartoon, for example, is not the same as launching a libelous attack on a group's dignity, according to the author, and it lies outside the reach of law. But defamation of a minority group, through hate speech, undermines a public good that can and should be protected: the basic assurance of inclusion in society for all members. A social environment polluted by anti-gay leaflets, Nazi

banners, and burning crosses sends an implicit message to the targets of such hatred: your security is uncertain and you can expect to face humiliation and discrimination when you leave your home. Free-speech advocates boast of despising what racists say but defending to the death their right to say it. The author finds this emphasis on intellectual resilience misguided and points instead to the threat hate speech poses to the lives, dignity, and reputations of minority members. Finding support for his view among philosophers of the Enlightenment, he asks us to move beyond knee-jerk American exceptionalism in our debates over the serious consequences of hateful speech. The thesis of this book is simple, and that is: Although hate is a disease from which no one is immune, each person has the volitional capacity to choose love. Genuine love—unconditional love—is looking into each other's hearts and imagining the best ways to practice compassion, then going the extra mile to fulfill the need. Choosing to love others grows out of self-love. We should treat everyone with dignity and kindness, not because they deserve such treatment, but because we deserve to experience the freedom that comes with the knowledge of having done the right thing. We cannot determine what life throws at us, the good or bad, even so, we can always choose how we respond to the things we cannot control. This book takes a semi-historical, yet comprehensive approach to the ethical and moral consequences of hate, indifference, and social intolerance. This book also examines why intolerance of difference is not only self-defeating but also detrimental to the ideals of liberal democracies. This book reveals that if hate is left to run its course, it can poison a nation's moral climate and threaten its collective identity. The author of this book contends that without the compass of love and tolerance guiding humanity's collective spirit, we could find ourselves floundering in a world where hate and intolerance are

the norms; hence, the necessity of creating a world where the highest valued currency is LOVE. When one truly loves, there cannot be any space in that person's life for racism, classism, tribalism, or elitism. Competition, contention, hate, violence, and indifference cannot co-exist in the heart that is filled with love. Let us therefore work together to create a more peaceful world based on an economy of love where we choose diversity over division, hope over despair, and compassion over indifference. In Edgar Allan Poe's classic tale, a murderer is haunted by the beating of his victim's heart. Be it mystery, romance, drama, comedy, politics, or history, great literature stands the test of time.
