A history of the manufacturing sector of San Antonio, paired with the stories of local companies. Américo Paredes (1915-1999) was a folklorist, scholar, and professor at the University of Texas at Austin who is widely acknowledged as one of the founding scholars of Chicano Studies. Born in Brownsville, Texas, along the southern U.S.-Mexico Border, Paredes' early experiences impacted his writing during his later years as an academic. He grew up between two worlds—one written about in books, the other sung about in ballads and narrated in folktales. He attended a school system that emphasized conformity and Anglo values in a town whose population was 70 percent Mexican in origin. During World War II, he worked for the International American Red Cross and wrote for the Stars and Stripes army newspaper in the Far East. He returned to Texas with a new bride and a passion for continuing his formal education and his writing. Paredes did both at the University of Texas at Austin, where he completed his Ph.D. in 1956. With the

publication of his dissertation, "With His Pistol in His Hand": A Border Ballad and Its Hero in 1958, Paredes soon emerged as a challenger to the status quo. His book questioned the mythic nature of the Texas Rangers and provided an alternative counter-cultural narrative to the existing traditional narratives of Walter Prescott Webb and J. Frank Dobie, among others. For the next forty years he was a brilliant teacher and prolific writer who championed the preservation of border culture and history. He was a soft-spoken, at times temperamental, yet fearless professor. He was a co-founder in 1970 of the Center for Mexican American Studies at the University of Texas at Austin and is credited with introducing the concept of Greater Mexico, decades before its wider acceptance today among transnationalist scholars. He received numerous awards, including La Orden del Aguila Azteca, Mexico's most prestigious service award to a foreigner. Paredes became a scholar of scholars, guiding many students to become academic leaders. Manuel F. Medrano interviewed Paredes over a five-year period before Paredes' death in 1999, and also interviewed his family and colleagues. For many Mexican Americans, Paredes' historical legacy is that he raised, carried, and defended their cultural flag with a dignity that both friends and foes respected.

Environmental sustainability issues in a fragile, semi-arid region and its coastal area, which experience climate changes from extreme drought conditions to the effects of hurricanes over a period of weeks to years, provide specific challenges for the ecosystems and the populations existing within the region. The research presented focuses on the problems and some solutions specific to the South Texas-Mexico border region, on both sides of the Rio Grande, focusing on water and air pollution. This unique and engaging open access title provides a compelling and ground-breaking account of the patient safety movement in the United States, told from the perspective of one of its most prominent leaders, and arguably the movement's founder, Lucian L. Leape, MD. Covering the growth of the field from the late 1980s to 2015, Dr. Leape details the developments, actors, organizations, research, and policy-making activities that marked the evolution and major advances of patient safety in this time span. In addition, and perhaps most importantly, this book not only comprehensively details how and why human and systems errors too often occur in the process of providing health care, it also promotes an in-depth understanding of the principles and practices of patient safety, including how they were influenced by today's modern safety sciences and systems theory and design. Indeed, the book emphasizes how the growing awareness of systems-design thinking and the self-education and commitment to improving patient safety, by not only Dr. Leape but a wide range of other clinicians and health executives from both the private and public sectors, all converged to drive forward the patient safety movement in the US. Making Healthcare Safe is divided into four parts: I. In the

Beginning describes the research and theory that defined patient safety and the early initiatives to enhance it. II. Institutional Responses tells the stories of the efforts of the major organizations that began to apply the new concepts and make patient safety a reality. Most of these stories have not been previously told, so this account becomes their histories as well. III. Getting to Work provides in-depth analyses of four key issues that cut across disciplinary lines impacting patient safety which required special attention. IV. Creating a Culture of Safety looks to the future, marshalling the best thinking about what it will take to achieve the safe care we all deserve. Captivatingly written with an “insider’s” tone and a major contribution to the clinical literature, this title will be of immense value to health care professionals, to students in a range of academic disciplines, to medical trainees, to health administrators, to policymakers and even to lay readers with an interest in patient safety and in the critical quest to create safe care. Follow your own nature to achieve clarity, power, and success

The Mushin Way teaches tools and techniques to help you reach peak performance and transform your business and personal life. Regardless of what we want to achieve in business or in life, transformation can be difficult and we tend to be our own worst enemies. We hold ourselves back without even realizing what we are capable of. In this book, you'll learn how to break through the cycle of stress and setbacks to act with clarity, purpose, and direction—achieving peak performance and transformation along the way. You'll look deep inside to discover the natural leadership abilities lying dormant within you; you'll wake them up, make them stronger, and learn to draw on the strengths of those around you instead of muscling through with brute force. You'll discover how making the right choice is an empowering act, and develop the strength and confidence to stop hesitating at every crossroad. With pragmatic advice and wisdom drawn from the guiding principles of the Japanese martial art of Aikido, you'll find your inner warrior and learn that even the most challenging battles can be won—or may not even need to be fought. When you set your sights high, peak performance can feel like a constant uphill battle fraught with failures and disappointments. What if success was more like a transformational river current that carries you along to your goal? This book shows you how to come down off the hill into the refreshing waters of mindfulness to begin your journey to the top. Develop laser-like focus, even in high-stress environments Identify and develop your own innate leadership qualities Turn setbacks into opportunities and defeat into victory Achieve much more than ever before, with far less effort Eastern philosophy teaches us to work in harmony with our own nature instead of fighting ourselves every step of the way. The Mushin Way shows you just where your inner strengths lie, and how to leverage them for success. In the last several years, much has been written about growing economic challenges, increasing income inequality,

and political polarization in the United States. Addressing these new realities in America's metropolitan regions, this book argues that a few lessons are emerging: first, inequity is bad for economic growth; second, bringing together the concerns of equity and growth requires concerted local action; and third, the fundamental building block for doing this is the creation of diverse and dynamic epistemic (or knowledge) communities, which help to overcome political polarization and to address the challenges of economic restructuring and social divides. "As America bolts toward a more multiracial future in the face of skyrocketing inequality, local leaders are desperately seeking strategies to foster more inclusive growth. Chris Benner and Manuel Pastor's research uncovers a critical ingredient of success: diverse regional leaders coming together to build a foundation of shared knowledge and advance positive change." -- ANGELA GLOVER BLACKWELL, Founder and CEO, PolicyLink

CHRIS BENNER is the Dorothy E. Everett Chair in Global Information and Social Entrepreneurship, Director of the Everett Program for Digital Tools for Social Innovation, and Professor of Environmental Studies and Sociology at the University of California, Santa Cruz. His most recent book, coauthored with Manuel Pastor, is *Just Growth: Inclusion and Prosperity in America's Metropolitan Region*. His other books include *This Could Be the Start of Something Big: How Social Movements for Regional Equity Are Transforming Metropolitan America* and *Work in the New Economy: Flexible Labor Markets in the New Economy*. MANUEL PASTOR is Professor of Sociology and American Studies and Ethnicity at the University of Southern California, where he also serves as Director of USC's Program for Environmental and Regional Equity (PERE) and Codirector of USC's Center for the Study of Immigrant Integration (CSII). He is the coauthor of *Uncommon Common Ground: Race and America's Future* and *This Could Be the Start of Something Big: How Social Movements for Regional Equity Are Transforming Metropolitan America*.

William Inge's famous story of marital frustration which erupts in violence. Doc and Lola had an indiscreet affair, she became pregnant and, compelled to marry her, he gave up his medical studies, forfeited his future and settled down to a life of quiet desperation with the simple, homey Lola, who lost the child but has remained Doc's steadfast if slatternly wife. Now a chiropractor and recovering alcoholic, Doc's sobriety is tested when Marie, a young college student becomes their boarder bringing new life and long-dormant hostilities to the surface of Doc and Lola's troubled marriage. The yearbook is designed to provide teachers and teacher educators with current research and practical guidelines for conceptualizing and implementing research. The conceptual framework of the yearbook is based on a triadic definition of scholarship: the production of knowledge, the interpretation and synthesis of knowledge, and the application of knowledge. Thus, there are noted authors invited to read, respond

and offer their interpretation and synthesis of the research selected for inclusion. Are you interested in learning how to create companies people love to love? If you want to be that company people love to love—the one that people can't wait to tell others about—you will find this book both inspirational and informative. Beyond Sizzle answers how branding, reimagined as an approach to management, can be a force for engaging your most important resource—people—to build your most valuable asset: your reputation. This book will ring true to anyone who wants to be that company customers, employees and the world can't wait to tell others about! People are increasingly looking beyond the sizzle of product and service advertising to the substance of the companies behind the image. As the conversations about purpose move from the margins to the mainstream, it's clear that this once-fringe business perspective, often associated with Birkenstocks and granola, now has a seat at the boardroom table. Award-winning management strategist Dr. Mona Amodeo brings together the best practices of change management, marketing, and communications to give readers an actionable process for creating brands that matter—organizations that are redefining workplaces, reimagining customer experiences, and creating innovative products and services that are building healthier, more sustainable communities—in turn, creating a better world for us all. If you are an entrepreneurial thinker ready to embrace the opportunity to prosper economically by having a positive impact on people, communities, and the world; a game changer courageous enough to challenge the status quo by designing and leading organizations as brands that matter; or a leader who wants to make choices that leave the world better than you found it, this book is for you. Readers who have enjoyed the works of Wally Olins, Dr. Mary Jo Hatch, Simon Sinek and books like *The Brand Flip* will benefit from Mona's approach on how to reach beyond philosophy and platitudes to a roadmap for transforming organizations into brands that matter to customers, employees and the world. The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival-demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children involved in seven of the interest areas in the The

Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explaining appropriate practice. Use this guide to get help with consumer purchases, problems and complaints. Find consumer contacts at hundreds of companies and trade associations; local, state, and federal government agencies; national consumer organizations; and more. A postman with a hobby of reading other people's mail learns about the immorality of the people on his route. "In general, teacher training and teacher evaluation prioritize lesson planning and learning objectives, not strategies for building relationships with students. Yet we know that learning depends on relationships; children cannot learn from people they don't like or who dislike them. Too often teachers, usually unconsciously, make the decision not to have a relationship with a student and thereby deny that student access to their education. This book focuses on the foundations of building relationships with students, even when difficult"-- Written for graduate students and professionals in the fields of midwifery, women's health, and public health, this book explores the freestanding birth center model in the United States from its conception by pioneering midwives and others in the early 1970s to the present day. Compared to the hospital-based birth model, the freestanding birth center offers a well-documented, healthier, more cost-effective, and more humane way to care for women and newborns, consistent with the goals of the Affordable Care Act. This rapidly expanding model of care has many positive implications for high-quality, individualized care and birth outcomes across the United States. Written by U.S. leaders in midwifery, *Freestanding Birth Centers: Innovation, Evidence, Optimal Outcomes* offers a comprehensive guide to the evolving role of birth centers, clinical and cost outcomes, regulatory and legal issues, provider and accreditation issues, and the future of the birth center model. Woven throughout the text are descriptions of "exemplar" birth centers representing diverse geographical, business, and service models. These cases illustrate the possibilities for expansion and replication of this model of care. *Key Features* Provides a thorough history of the birth center movement from its inception through future expansion of the model Serves as an essential resource with up-to-date evidence on clinical and cost outcomes Includes case studies linking the unique service focus of individual birth centers to the associated sections of the book Provides practical and comprehensive coverage of all issues involved in running a U.S. birth center A leadership and career manifesto told through the narrative of one of today's most inspiring, admired, and successful global leaders. In *Winners Dream*, Bill McDermott—the CEO of the world's largest business software company, SAP—chronicles how relentless optimism, hard work, and disciplined execution

embolden people and equip organizations to achieve audacious goals. Growing up in working-class Long Island, a sixteen-year-old Bill traded three hourly wage jobs to buy a small deli, which he ran by instinctively applying ideas that would be the seeds for his future success. After paying for and graduating college, Bill talked his way into a job selling copiers door-to-door for Xerox, where he went on to rank number one in every sales position he held and eventually became the company's youngest-ever corporate officer. Eventually, Bill left Xerox and in 2002 became the unlikely president of SAP's flailing American business unit. There, he injected enthusiasm and accountability into the demoralized culture by scaling his deli, sales, and management strategies. In 2010, Bill was named co-CEO, and in May 2014 became SAP's sole, and first non-European, CEO. Colorful and fast-paced, Bill's anecdotes contain effective takeaways: gutsy career moves; empathetic sales strategies; incentives that yield exceptional team performance; and proof of the competitive advantages of optimism and hard work. At the heart of Bill's story is a blueprint for success and the knowledge that the real dream is the journey, not a preconceived destination.
