Manuals Combined: Military Working Dog Handler Medical and Doctrine Presentations And Manuals Mar 28 2020 Over 3,200 total slides and pages ... INTRODUCTION: Dogs have served in active service at the sides of their handlers for decades. They have been heroes, showing bravery under fire, saving lives (often losing their own), and bringing comfort to the injured and infirmed. The first recorded American use of military dogs was during the Seminole War of 1835 and again in 1842. In Florida and Louisiana, the Army used Cuban bred bloodhounds for tracking. During the US Civil War, dogs were used as messengers, guards, and unit mascots. The Army Quartermaster Corps began the US Armed Forces'

first war dog training during World War II. By 1945, they had trained almost 10,000 war dogs for the Army, Navy, Marine Corps, and Coast Guard. Fifteen war dog platoons served overseas in World War II. Seven platoons saw service in Europe and eight in the Pacific. MWDs were trained at Fort Carson, Colorado, organized into scout dog platoons, and used in the Korean conflict for sentry duty and support of combat patrols. In 1957, MWD training moved to Lackland Air Force base (LAFB), Texas, with the Air Force managing the program. Throughout the Vietnam Conflict, the Military Police Corps used dogs with considerable success. Most of these were sentry dogs used to safeguard critical installations such as ports and airfields. A new dimension in canine utilization was realized when marijuana detector dog teams were trained and deployed to assist military police in suppressing illicit drug traffic. Sentry and marijuana detector dog teams were then deployed worldwide in support of military police. An important outgrowth of the conflict was the development of canine research and development efforts. These ongoing efforts were able to initiate the first steps toward developing a more intelligent and stronger military dog, training dogs to detect specific drugs and explosives, developing multiple-

purpose dogs, and employing tactical dogs by electronic remote control. In the 1990s and early 2000s, MWDs were deployed around the globe in military operations such as Just Cause, Desert Shield and Desert Storm, Uphold Democracy, and Enduring Freedom and Iraqi Freedom. These teams were effectively utilized to enhance the security of critical facilities and areas, as well as bolster force protection and antiterrorism missions, allowing commanders to use military police

*Corporate Manslaughter and Corporate Homicide Jan 26 2020 A corporation is an artificial legal person, existing only in the contemplation of law, having perpetual succession and common seal. Can a corporation commit crime, for its inability to form mens rea? If yes, then can it be accused of crimes as grave as homicide? Even post the Bhopal Gas Tragedy and the Uphaar Cinema Tragedy, absence of legislation such as the Corporate Manslaughter and Corporate Homicide Act, 2007 (UK) is no less a pity. Absolute liability theory (coupled with deep-pocket theory), though is an improvisation over the strict liability theory but has failed to ensure corporate criminal deterrence. This book is an attempt to ponder over issues relating to corporate criminal behaviour, in particular*

'corporate homicide' and 'corporate manslaughter'.
