"Am I doing enough to help my English language learners succeed?" Have you had these thoughts? Take heart, you are not alone. As schools and districts swell with growing numbers of English language learners, and as administrators and teachers wrestle with federal guidelines for educating these students, many educators are faced with these same challenges and much more. To meet these challenges, it is imperative for educators to learn about and use the theories and teaching strategies that will help English language learners succeed in the classroom.
