T'was the Night Before Fifth Grade Jul 14 2021 This book

is about a fifth grade boy who is new to school and is nervous about starting fifth grade. His name is John and he is feeling anxious and frightened at his new school, until one student makes John feel accepted by her kindness and generosity. Sometimes all we need is a friend to help guide us in the right direction. I came up with the idea for this book when I was reading Christmas stories to my kids one night before they went to bed. I thought to myself, I am a fifth grade teacher and I could write a book to help kids feel more accepted and safe in a new situation. To keep this book more personal to me, I asked my friend and the art teacher at my school, Abe Lee to illustrate the book. It was fun and entertaining to work with Abe on this book.

Yardsticks Mar 10 2021 Expanded from its previous edition to include ages 13 and 14, this book provides teachers and parents with a quick reference on important childhood developmental issues, explaining what children should be learning and doing in the classroom at each developmental stage. Each of the 11 chapters, one for each year, includes a narrative description and charts outlining growth patterns, classroom implications, and appropriate curriculum. The charts allow readers to identify developmental

"yardsticks" for a given age. These charts outline characteristic growth patterns (physical, social, language, and cognitive) as well as what to expect in the classroom regarding vision and fine motor ability, gross motor ability, cognitive growth, and social behavior. The curriculum charts summarize the developmental continuum between ages 4 and 14, covering reading, writing, mathematics, and thematic units in social science, science, and current events. The book concludes with a list of over 100 favorite books for different ages, and resources for parents and teachers. (HTH)
