This book traces the evolution of European Union employment law and social policy from its essentially economic origins in the Treaty of Rome through to the emerging themes post-Amsterdam: co-ordination of national employment policies, modernisation of social laws and combating discrimination. Each stage of development of Community employment law and social policy is analysed in depth to give a sense of perspective to this fast changing field. As the European Union seeks to meet the challenges of globalisation the need to develop social policy as a productive factor has come to the fore. The author explains how the social, economic and employment imperatives of European integration have always been intertwined and how the emergence of Community employment law from its hitherto twilight existence is best understood through an examination of consistent strands of policy development. 'Philosopher Kings' examines the attempts by courts to sort out conflicts involving freedom of expression, including religious expression on the one hand and rights to privacy and other important social values on the other. Combining the number one Individual tax text with the number one Corporations text, West Federal Taxation: Comprehensive Volume, 2005 Edition, is a true winner. An edited version of the first two WFT textbooks, this book offers a thorough and balanced treatment of relevant tax Code and regulations as applied to individuals and corporations. Ideal for undergraduate or graduate levels, this text works for either a one-semester course in which an instructor wants to integrate coverage of individual and corporate taxation, or for a two-semester sequence in which the use of only one book is desired. SpringBoard Mathematics is a highly engaging, student-centered instructional program. This revised edition of SpringBoard is based on the standards defined by the College and Career Readiness Standards for Mathematics for each course. The program may be used as a core curriculum that will provide the instructional content that students need to be prepared for future mathematical courses.
