Covers multiple presentations of cases in main organ system areas, including musculoskeletal, cardiovascular, pulmonary, gastrointestinal, endocrine, genitourinary, neurologic, psychiatric, eye/ear/nose/throat, and pediatric, in multiple patient care settings such as urgent care, emergency department, outpatient clinic, and inpatient wards. · Focuses on topics that are particularly common in Hispanic/Latino patients and includes cultural health issues that may impact the patient's understanding of medical information, belief system, decision-making preferences, or access to care—all of which have a significant impact on your medical decision making and interviewing styles and effectiveness. Leads you through key information for each case, prompting you to use your medical Spanish clinical skills in a series of prompts and questions as the case unfolds. Assessment questions follow each case to test your comprehension. Provides more than two dozen audio cases to improve your listening comprehension of different nationalities and accents of Spanish-speaking patients. Provides real-world content from Drs. Pilar Ortega and Marco Alemán, who serve on the steering committee for the National Medical Spanish Taskforce that aims to standardize the educational approach to a national assessment examination for Medical Spanish.
